

Provision for pupils with particular needs

Cheltenham College ensures that boarders are not discriminated against and takes actively upholds the rights of those with protected characteristics. Staff are aware of their responsibility to protect individuals with a different cultural background, linguistic background, special educational need/s and/or disability, or academic or sporting ability, although this list is not exhaustive and encompasses all those with potential vulnerabilities. A wide range of factors are taken into account in the care of boarders so that care is sensitive to different needs and an inclusive environment is promoted within the school.

The catering team and Health Centre are aware of pupils with special dietary requirements, including for medical and/or faith and/or cultural reasons.
